

Integrated Solar Street Light with Lithium Ion Battery

Advantages

- Advanced integration design, contracted, fashionable, light and practical
- Using solar power to save electricity, protect the earth's resources
- Using human body infrared sensor control technology, people come, it turns bright; people go, it turns dark, extending lighting time
- Using lithium phosphate battery, ensure the service life of the product
- No need any wires, very convenient for installation
- Waterproof structure with IP65 rating enclosure, safe and reliable
- Modular design, easy installation, maintenance

Description

Magnizon's Integrated solar street light which integrates the green-energy parts solar panel, LED lamp and the Li-Fe battery into a single product, is with human intelligence induction system to gain the solution of low-energy, long-time, high-luminance and free maintenance. And the same time, it's convenient in the shipment and installation.

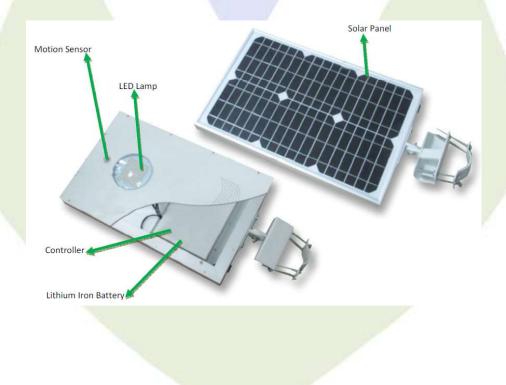

Features

Solar panel, battery and LED lamp are all in one, which is waterproof with IP65 rated enclosure. The shell is made from aluminum alloy, cooperating with good waterproof and airless technology. Dustproof, water proof, anti-static, shocking resistance and applicable for outdoors.

- Be convenient to be dismounted, assembled, carried and transported.
- Ultra-white glass with high light transmittance cloth is used as lens, which makes the light gentle.
- The life span of LED is 50000 hours.
- When the temperature raises up to 50°C under the sun, the fan inside automatically starts to reduce the temperature and be ventilated.
- High-efficient power generation, large capacity, high light efficiency, small volume, light weight, long life span, convenient carrying.
- Flexible stand can be raised to 1 to 2 meters high.
- The lamp head can be rotated 360° flatly and be adjustable 180° uprightly, which is designed to get light around.

Highlights

- Solar panel: High efficiency monocrystalline panel
- LED Lamp: 8w-40w high lumens, USA
- Battery Type: High capacity lithium phosphate battery (LiFeP04)
- Controller: Intelligent R&D of Magnizon

| | Integrated Solar S | treet Light (50W) |
|------------------------|--------------------|--|
| Model No. | MP-SIL050 | |
| Solar panel | Max power | 18V80W (high efficiency monocrystalline silicon) |
| | Life time | 25 years |
| Battery | Туре | lithium Ion battery 12.8V30AH |
| | Life time | 5 years |
| LED Lamp | Max power | 50W |
| | led chip brand | Bridge lux from USA with high brightness |
| | lumen (LM) | 110-120lm/w |
| | Life time | 50000hours |
| | Viewing Angle | 120° |
| Charge time | by sun | 6 hours |
| Discharge Time | Full power | more than 12 hours |
| | saving power mode | more than 24 hours |
| Working Temperature | Range (degree) | -30~+70 |
| Color Temperature | Range(k) | 6000k |
| Mounting Height | Range (m) | 6-7m |
| Space Between Light | Range (m) | 15-18m |
| Lamps Material of Main | | Aluminium alloy |
| IP category | | IP65 |
| Warranty period | 2 years | |
| Packing & Weight | Product size | 1190*520*210mm |
| | Product weight | 22kg |
| | Packing box | 1200*535*230mm |
| | Carton size | 1200*535*230mm |
| | Qty/ctn | 1sets/ctn |
| | GW.for carton | 23.0kg |
| Packs Containers | 20GP | 230 sets |
| | 40GP | 470sets |
